The first NEZ event in Høljes Sweden was the best ever event in crosskart history regarding the quality and number of partizipants. The event atracted 120 drivers in the NEZ classes and 163 totally wich both is solid record for a single event in crosskart ever

4. Negative issues

4.1 issues that did not meet expected values:

Number of partizipants in the Lithuania and Latvia events was much lower than expected. It was expected that the "holiday offer" would attract more drivers who wanted to combined the two events with holiday.

Proposals for next year

1.About summary point,from 2016 you can only exclude event in which you have participated in . Participated means at at least started in the practice

2.At the last event in the Chamionship it will be held a unformel price seremony for the medal winners. The organizer decide what to give.

REPORT – Sporting Commission and Working Group

Name of the Sporting Commission / Working Group:

EcoRun/Rally Working Group

1. Events – please describe

1.1 Quality:

Suzuki EcoRally in Denmark by Horsens Automobil and Motor Klub on 15 - 16.5.2015. The competition was driven according to its own regulations, which were very well in accordance with EcoRunRally recommended regulations.

1.2 NEZ Symbols:

NEZ symbols were seen in the internet (marvelous site quality, by the way), on materials like invitation, entry list, road book and results.

1.3 Promotion:

The date of competition was well known in advance. Promotion by email to national contacts and to the established competitors, plus internet web pages, via Facebook page (open group), and personal contacts, both nationally and internationally. Clerk of the course, Ulrik Hejl, has close contacts to Netherlands and Germany. Start of promotion could have been some week earlier, which would have deminished uncertainty about the event. Help of national contact persons in NEZ countries was succesful, especially in Finland.

1.4 Spectators:

Start of the competition was organized in a Suzuki show room, during a normal shopping day. The visotors learned to know what is Economy Run as a sport. It is typical that people do not know EcoRun or EcoRally well enough.

1.5 Other matters:

Majority of TCs were run by competitors, which is a proven system from the previous years. It is also well accpeted by the competitors.

The sponsor co-operation was nice and smooth, especially with Suzuki and Shell..

2. Participants

2.1 Number of drivers:

15

2.2 Number of drivers by countries:

Norway 1, Denmark 10, Finland 3, Germany 1 plus one parliament candidate.

3. Positive issues

3.1 issues that was better than expected:

The competition did receive media coverage much better than anyone would have anticipated, First they had a spot on TV- news and later the same in national TV evening's main new broadcast.

The commitment of the organizers to the event on the competition date was excellent. Also they had well organized ceremonies after the event, in a good mood and with relaxed mind.

4. Negative issues

4.1 issues that did not meet expected values:

Number of participants was delightful, but could have been higher, too. Especially disappointing was the EV class, which did not have a single participant. Cars were there, but no one willing to drive EV competition.

Proposals for next year

NEZ EcoRun 2016 will be organized by Horsens Motor og Automobil Klub on October 29th, 2016.

Current board took over during a meeting held in connection with the NEZ Formula offroad competition in Skien Norway 2013. And are still with the same persons on board.

We did some modification on the regulation for the year 2015 both on the technical part and the driving regulations. At the same time we began to evaluate and go through safety regulations, and this work is still ongoing. The regulations for 2016 are ready, and the regulations for 2017 are in process. Several meetings have taken place both during and between competitions this year, and some telefonmeetings.

We had a meeting in Skien in connection with the NEZ competition.

After report from NEZ meeting last year where we were asked to split up the regulations, we did so which means at we in practice has a completely new regulation which need to be translated from English to all the nations which has drivers taking part in Formula Offroad.

Regarding competitions scheduled this year, which we were forced to cancel because of the permission for the area was drawn back. However, NAF Skien was able to arrange The NEZ Formula offroad **CHAMPIONSHIP** on a short notice this year. There was a new record of teem taking part this year. Formula offroad is a groving sport in Iceland, but standing still in Norway, Sweden and Finland and one new car did show up from Denmark this year. We had some issues in Skien about following the regulation mainly lack of information til FOWG like results and buletin. The competition itself was very good and nearly all participants were satisfied and no complaints were filed on there behalf.

The next NEZ competition will be in Iceland in May 2016,

1.1 NEZ symbols

1.2 Promotion

NEZ not promoted good enough, especially not in western countries.

1.3 Spectators

Normal amount of rally-spectators

2. Participants

2.1 Statistic:

In Eastern events: 29 – 37 participants, in Western events 2 – 8 and Juniors 0 – 8.

2.2 Number of drivers by countries:

Number of participants not satisfying, especially in the western events. Allmost no travelling between east and west. Mentioned before, travelling over the Balic sea is too much time consuming.

3. Positive issues

3.1 Issues that was better than expected:

Exchange on official level progressing, also contact between the commisionmembers regarding issues not directly related to the NEZ-championships.

4. Negative issues

4.1 Issues that can be improved

Number of participants not satisfying, especially in the western events. Allmost no travelling between east and west. No real interst from drivers, seems like points scored are more “by accident” than at purpose. Other series and cups are more attractive, easier to take part in all events.

5. Proposals for next year, 2016:

Junior championship:

26-27 feb. Mikkeli, Fin.
21-22 May Talsi LV,
26-27 aug. Tallinn Est.
23-24 Tampere Fin.
22-23 Oct. Denmark, Den.

This will be the NEZ championship with high sporting quality.

“Travellers championship”:

10-11 Sept. East Swedish, Swe.
15-16 oct. RallyLatvia Lv.

Those two with appeal to drivers who are not at top level, but interested in “adventure”. Only two events where the organizers will have to make exceptional good deals for the competitors from “the other side” of the region. Promotion and some sort of assistance to organization of travel, at the discretion of the commission members in cooperation, at the side of the region the competitors are travelling from.

Report to the NEZ Council meeting, Oslo, March 20th, 2016

During the NEZ Racing Commission meeting on Saturday, March 19th 2016, the Sporting and Technical regulations 2016 including calendars for the different classes, will be decided.

For the time being we have the following classes applying for NEZ Championship alt. Cup in 2016:

- Formula STCC Nordic (former Formula Renault 1.6)
NB! The new name of this class is caused by the fact that Renault Sport has withdrawn all support to the Formula Renault 1.6. From this year the STCC have picked up the class in order to run it within the STCC-series. The STCC has overtaken all responsibility of the class and therefore given it a new name = Formula STCC Nordic.
- Formula 4
- Legends
- Radical
- Formula Ford (uncertain at this moment, but om Saturday, we know)

Proposals for next year

We had made Calendar of 3 events, with big space between races which should attract even more drivers to NEZ races. National events for 2017 are with very good balance with NEZ events. For NEZ crosskart there must be presented one observer from NEZ Crosskart committee in all NEZ events. All members of NEZ crosskart committee should have official sign (card and jacket) to be recognized on events. Continue to work on regulations which will attract more young drivers.

We had elected new Chairwoman: Heli Lahti Saloranta Finland
and vice chairman: Janis Belakovs Latvia
